Subject: RE: FW: Dimock Shipment Notification

Stevie,
I'm sure that VOCs were collected along with all the other parameters.
I'm not sure of the shipping schedule. With six and now possibly seven
labs, they don't have time to ship everything daily, especially with
some samples not coming in until the end of the day. Bacteria and MBAS
have to be shipped daily.

Region 2 also received samples.

Region 3 did not get any VOC samples. Were VOCs collected?

When will the samples be shipped to R9 and NAREL?
